

# Lee Walczak, Taken

Frightened and cold,  
I stand beside  
Our shattered dreams.  
I had so much to say to you  
But that wont ever do now.  
Now you'll never understand  
The agony I feel for you  
And now I'm only but a stone  
Set in the hope I'll see you again in time.  
Trying to keep  
My sanity,  
I try so hard to hold on.  
But theres so much paralyzing pain  
That I cant help but feel ashamed for.  
(Repeat chorus).  
I, I wish you could find me  
And I wish I could hear you  
I wish I could feel you, oh.  
I wish we were together  
So we'll be forever  
Once more.  
Frightened and cold  
I stand beside  
What we used to be.  
In time I'll find my way,  
But for now I have to say...goodbye.
