

Leech, Jinn

Jinn

These last days
Make you think
You never did before
Climb high
See the flood rise, earth will fall
Change shape and color

I am the sea
I am the sound
And I am the silence
I am the spring
I am the wind
I am alive in everything

It's warm again
I traveled time to bring the cycle to an end
I shake the ground
Release the hounds
A horn will sound
It's time for cover

I am the sea
I am the sound
And I am the silence
I am the spring
I am the wind
I am alive in everything

A spark will become a light again
Space men with wings will deliver Jinn

I see the lights fill the sky
I see the lights fill the sky

I toast the prophecies
With a glass filled with water
The taste that what tomorrow will bring
One way or the other

I am the sea
I am the sound
And I am the silence
I am the spring
I am the wind
I am alive in everything

Step away from the starlight
And the words of strangers on your screen
Clear your head to see the shrouded truth
The asteroid pulls near
