

# Leech, Populous

Populous

As they awake  
The earth will truly be shaken  
They end the age of men  
And begin one of machine  
So prepare for war

Lightspeed at the end of the tunnel  
Pulsating warmth at the tip of your tongue  
Men turn to the help of the fungus  
The eye in the sky watching us burn

Tremble at the feet of the giant robots  
With their march they begin their reign  
A new Reich is soon upon us  
So prepare for war

Lightspeed at the end of the tunnel  
Pulsating warmth at the tip of your tongue  
Men turn to the help of the fungus  
The eye in the sky watching us burn

The signs were there long before  
Clearly seen but just ignored

Can you hear them coming closer  
They echo in the silence  
Can you hear them coming closer  
Can you hear them  
Can you hear them

Lightspeed at the end of the tunnel  
Pulsating warmth at the tip of your tongue  
Men turn to the help of the fungus  
The eye in the sky watching us burn
