

Leech, Populous

Populous

As they awake
The earth will truly be shaken
They end the age of men
And begin one of machine
So prepare for war

Lightspeed at the end of the tunnel
Pulsating warmth at the tip of your tongue
Men turn to the help of the fungus
The eye in the sky watching us burn

Tremble at the feet of the giant robots
With their march they begin their reign
A new Reich is soon upon us
So prepare for war

Lightspeed at the end of the tunnel
Pulsating warmth at the tip of your tongue
Men turn to the help of the fungus
The eye in the sky watching us burn

The signs were there long before
Clearly seen but just ignored

Can you hear them coming closer
They echo in the silence
Can you hear them coming closer
Can you hear them
Can you hear them

Lightspeed at the end of the tunnel
Pulsating warmth at the tip of your tongue
Men turn to the help of the fungus
The eye in the sky watching us burn
