

# Left Alone, Dead American Radio

I heard a song on your American radio  
I can't believe the lies  
Dead dead American radio  
Well I see right through your lies

I don't know why it's so hard to see  
That it's all just a scam  
That it's all about making money  
What will it take for you to understand

Dead dead American radio  
Well I see right through your lies  
Dead dead American radio  
Well I'm sick of all your lies

And I don't care about you top 100 list  
And I don't care about your ad campaign  
I say kill the suits that run it all  
The ones who sell the lies everyday
