

Lefty Frizzel, Lonely Heart

Darkness fell my day was night but heart you did it you did what's right
Because if she really cared for me wish she would be with us tonight
Thanks to you old heart of mine you told her up of her cheatin' times
You cried out loud you're untrue oh lonely heart I cry with you
[piano]
Lonely heart I know we lose lonely heart you're broken too
The way she act to you and I will I look off so you can cry
