

Lefty Frizzel, Woman Let Me Sing You A Song

Woman let me sing you a song woman let me sing you a song
That tells how you've done me wrong so it's your fault if it's long
Woman let me sing you a song
The neighbors say I run around the neighbors say I run around
But baby if I do I'm miles back off you woman let me sing you a song
My banker count is almost gone my banker count is almost gone
You're wearing furs and rings while I wear old blue jeans
Woman let me sing you a song

[guitar]

You tell your friends I drink too much now the whole town knows I drink too much
But the reason why I drink is the thought you make me think
Woman let me sing you a song
I'm leaving and you think I'll be back I'm leaving but you think I'll be back
Here's my advice to you don't stop breathing till I do
Woman let me sing you a song
Woman I done sang you my song woman I done sang you my song
