

Legenda, By The Moonlight

hey she's rising from her cold grave
Bitch vampire dancing at it's gaze

By the moonlight gave farewell
By the moonlight, by the cold night

Hey, bloodthirsty red stary eyes
She's gazing at my side for my bloodwine

By the moonlight gave farewell
By the moonlight, by the cold night

Hey, sister of darkness is unleashed
Risen from her lair for a bloodgiven feast

In it's glory when she is fed
Gives farwell to my milk white neck

By the moonlight gave farewell
By the moonlight, by the cold night

Hey, sister of darkness is unleashed
Back to her lair for a bloodgiven dreams
