

Legendary Jim Knopf, New Song

I wanna sing a new song
Want to use words I never used before
I think this won't take long
It's not my first one and there will be more

I wanna sing a new song
A melody just sweet and fine
Tones to carry me along
I do it, 'cause this song is mine

I wanna play a new song
With instruments, yeah, with a band
Punk, rock, slowly, honky-tonk
We'll try it with no real end

This was just a new song
I didn't find it hard to do
I don't know where it does belong
It was just a song for you
