

Legion Of The Damned, Solar Overlord

Solar overlord
Warrior priest of the sun
Pillar of the ancient order
God and beast as one
Solar overlord
Spawn of the invincible sun
Spartan discipline
Imposed on the militant monks
Solar overlord
Warrior priest of the sun
We are the sons of death
Calm in the storm
Solar overlord
Spawn of the invincible sun
Kali yuga reigns
This cycle of regression
Overman, titan height
Promethean thrust
Radiant anger, bursting hatred
Burning lust
Overlord, shade of Hades
Bringer of death
Bow down for the solar overlord
Kneel down for the solar overlord
A million sun storms in my mind
Transcending mundane madness
Ascending to heights unknown
I will unleash the thunderbolts
We are the thrusting horns
The order of the bull
The blood will be spilled
To celebrate the black sun
Raven of dispersion
Brought to the streets
Explosive charges and debris
Chaos to be unleashed
Overman, titan height
Promethean thrust
Radiant anger, bursting hatred
Burning lust
Solar overlord
Warrior priest of the sun
Pillar of the ancient order
God and beast as one
Raven of dispersion
Brought to the streets
Explosive charges and debris
Chaos to be unleashed
