

# Leki, Babygirl

Chorus:

Babygirl, time to let it go  
The world you know won't bring no more  
Babygirl, let yourself grow  
Nothing' to find better shut that door  
Babygirl, time to change you flow  
Can't chose? Can't run no more!  
Babygirl, think you better know  
The world you knew, ain't no more

Open you eyes,  
See the same  
Not surprised, baby knows the game  
Who are you?  
Thinkin' she not the same  
She used to be  
Things change  
Started as a game sucked you in  
Now your here  
Messed up  
Still a grin  
Tthat face of yours reads sorrow  
Livin' it up like there ain't no tomorrow  
Things you should you wont  
Things they don't you do  
What you wont you don't get  
The shit you do  
Where's it gonna end?  
Take a look at you  
Where's it gonna end?  
Who controls who?  
Runnin' round sheming  
'nd lying mainly  
TO YOURSELF  
Tryin' to hide me  
Had to find me  
Fooled yourself

(chorus)

Beating myself up  
Won't bring my selvation  
Gotta learn to live in self approbation  
Hardest part is trusting me  
The good and the bad  
I got it in me  
I have,  
Done a lotta things  
Said a lotta things  
Cared about no-thing  
Felt no emotions  
That face of yours reads sorrow  
Living it up  
Like there ain't no tomorrow  
Things you should you won't  
Things they don't you do  
What you won't you don't get  
The shit you do  
Where's it gonna end?  
Take a look at you  
Where's it gonna end  
Who controls who?

(chorus)

I realized  
I stand alone  
I came and i will go  
To know that blew my mind  
Unchained my soul  
Enabled me to grow  
No i don't steal no other's energy  
I generate my own  
I move like no one got no grip on me  
Flow on my tempo
