

# Lemar, Body Talk

Tonight you gotta trust me girl  
It's all about actions  
Not about words  
Got plans for you  
What you want me to  
Girl I will do  
You can pick and choose  
You know that I'll lay it on  
On the back of my bike  
You'll be holding on  
In the day  
Take pictures in the sun  
In the night  
Let the city lights turn us on

We can take it back to the crib  
You can show me what  
You're working with  
Open up and let me in  
Let your body do the talking  
Now that we're finally all alone  
I'm gonna give you something worth waiting for  
So lets just hurry and get it on  
Let your body do the talking

[Chorus:]  
Let your body do the talking  
Let your body talk  
You can let your body talk  
(So Come on!)  
Let your body do the talking  
(Get down through the night)  
Let your body talk  
(It's alright)  
Just let your body talk  
(So Come on!)

Wake up; it's a brand new day  
And i've got plans to  
Make you happy  
Lace you with diamonds  
A girl's best friend  
Just watch me closely  
I'll break you in  
Come on, let's hit the club  
No time for talking  
Just rave non-stop  
As the tempo slows  
Its time to leave

As you look in my eye  
You know what I need

We can take it back to the crib  
I can show you what I'm flexin with  
Open up and let me in  
Let your body do the talking  
Now that we're finally all alone  
I can give you that something you've been waiting for  
So lets just hurry and get it on  
Let your body do the talking

[Chorus x2]

So many things I'd like to do  
So many ways to make  
Your body move  
Now you're home with me  
We can have a private party  
Come get down with me  
So come on!

(Get down through the night)  
(It's alright)  
(So come on!)

[Chorus x2]
