

Lemon Demon, Elsewhere

I'm gonna find another place to be,
I had to make a choice or two.
One or two choices based in chemistry,
I once or twice considered you.

I'm gonna leave you here.
I'm gonna leave you here.
Consider this our kiss goodbye. I
I'm going far away;
Already packed my bags.
And you can say we didn't try.

You think you're bad, huh?
You're a [boing]ing choir boy compared to me! A choir boy!
A choir boy! A choir choir choir boy!
You think you're bad, huh? A choir boy!
