

Lena Philipsson, Fly Me Over The Rainbow

In my sweet imagination,
I keep seeing you and me alone
making love like there's no tomorrow,
both letting go
You are my infatuation
You can take me where I've never been
Can it be that if I give up then maybe I win?
If I am the one, baby, show it
If I am the one, let me know it
Fly me over the rainbow
Make me a star of your late show
Baby, I wanna feel it
Hold me and make me believe it
Stealing some moonlight, tell me you'll stay
I'll be your love, I will run away, so,
fly me over the rainbow, don't ever let go
I made my move, now it's your turn
If you want me, baby, here I am
I can make you feel like you're burning,
feel like I'm made
I don't why you've been waiting
Love me and stop hesitating
Fly me over the rainbow
Make me a star of your late show
Baby, I wanna feel it
Hold me and make me believe it
Stealing some moonlight, tell me you'll stay
I'll be your love, I will run away, so,
fly me over the rainbow, don't ever let go
Let your feelings take you there
There's so much we can share!
(Oh, wait a minute)
Fly me over the rainbow
Make me a star of your late show
Baby, I wanna feel it
Hold me and make me believe it (Ooh, Woh)
Fly me over the rainbow
Make me a star of your late show
Baby, I wanna feel it
Hold me and make me believe it
Stealing some moonlight, tell me you'll stay
I'll be your love, I will run away, so, (So)
fly me over the rainbow, don't ever let go
