

# Lena Philipsson, Together We're Alone

Together, Together we're alone  
Together, Together we're alone  
Watching the stage  
I smile at the fakes  
Nobody seems to be themselves  
What do I care  
I've got my "bestthingever";  
People may come  
People may go  
All what they say I've heard before  
Lucky my soul  
That's got it's "bestthingever";  
And when my baby comes  
he's the one that cools me down  
When he's around I lose my time  
Together we just leave this world  
Together, together we're alone  
Fights for the fame  
Money for the same  
God bless the child that wins this game  
What will he gain?  
I got my "bestthingever";  
And when my baby...  
And when my baby comes  
He knows what life's about  
Together, together we're alone  
And when my baby comes
