

Lene, Surprise

Surprise I'm still here
Aren't you glad did you miss me
Surprise I'm still here
But I can't stay for the evening
But here just press play
It's my new song
Now why you weeping no no no no

Now don't, don't try to mess with me
I really don't really need your sad approval
Let me state the facts
I would never bring you a glass of flowers
Trying to get you back
I really don't really need your sad approval
Let me state the facts
I'm at the top and I'm not gonna drop
Little baby

Surprise I'm a pro
Though you told me to rethink
Surprise this is, is TYE
She's my girl
Look at my ring

Repeat Chorus
