

Leng Tch'e, I Know Where You've Shit Last Summer

[lyrics : Isaac]

You are driving me mad
with all this new horror crap

They should kill Wes Craven for inventing this shit
stupid movies about some dumb serial killer
or other boring stuff like some pet monster
lame and ridiculous shit they make 'coz it sells

Horror is meant to score the shit out of you
it's films about the macabre and morbid side of us
Feelings of anger and hatred,
fear and anxieties everyone has
