

# Leng Tch'e, I Know Where You've Shit Last Summer

[lyrics : Isaac]

You are driving me mad  
with all this new horror crap

They should kill Wes Craven for inventing this shit  
stupid movies about some dumb serial killer  
or other boring stuff like some pet monster  
lame and ridiculous shit they make 'coz it sells

Horror is meant to score the shit out of you  
it's films about the macabre and morbid side of us  
Feelings of anger and hatred,  
fear and anxieties everyone has
