

Leng Tch'e, The Regular Knot-It-All

[lyrics : Isaac]

Sniffing around like a dog marking out its territory
searching a place for taking a piss
and some business to put your nose in
if I want to hear your opinion
I'll f**kin' ask for it
don't you get in my way with all your wisdom of life

You want to know everything that happens
when someone talks you always meddle in
even if you don't know what the f**k it's about
you still have something to say
is your life really so pathetic
that you need all this gossip?

The regular know-it-all!
