

Lennon, These Days

She says, some nights I just lie awake
She says, sometimes I just sleep for days
Smokes another cigarette and looks around the room
What are these days coming to
She says, it seems I've been screwed over again
But that's okay, who the hell needs friends
It's easier to pretend
Say you don't care and watch for the end

(Chorus)

One more night is all she thinks
I won't come back no I'm too weak
Those things he said to me
One more night, and then I'll leave

She walks in one second too soon
Silence uncovers the room
She looks at him in disarray
He says I'm not sorry and turns away
He says I'm tired of hearing you bitch
You're nothing more than a stupid trick
You're not even worth the price I paid
Get out of my life, get out of the way

(Chorus)

(Bridge)

She's standing on the balcony
Saying look this is my destiny
On more step and I'll finally be free
He says if you want my help
I'll give you that extra step
She just turns and walks back to their bed

(Chorus) x2
