

Lenny Kravitz, Butterfly

You are the most beautiful thing
I've ever seen
You shine just like sunlight rays
On a winter snow
I just had to tell you so

Your eyes sparkle as the stars
Like the moon they glow
Your smile could light the world on fire
Or did you know?

Your mind's full of everything
That I want to know
I just had to let you know
I just had to tell you so
You're my butterfly
Fly high
Fly fly fly
