

Lenny Kravitz, Can We Find The Reason

you are the most beautiful thing
i've ever seen
you shine just like sunlight rays
on a winter snow
i just had to tell you so
your eyes sparkle as the stars
like the moon the glow
your smile could light the world on fire
or did you know ?
your mind's full of everything that
i want to know
i just had to let you know
i just had to tell you so
you're my butterfly
fly high
fly fly fly
