

Lenny Kravitz, I Love The Rain

The clouds are forming
She comes again
I'll go and walk with her
Along the Seine
Soon she'll be storming
Here comes the wind
But that don't bother me
'Cause she's my friend
I love the rain
I love the rain
I've held our memories
All of these years
So many good times
And many tears
I share my dreams with her
I share my fears
So I just walk with her until she veers
Off in the distance
I love the rain
I love the rain
I love
I love
I love the rain
Oh

Just as she always does
She has to leave
With her she takes my heart
Into her breeze
Sometimes I think that she
Just likes to tease
Still I'll be waiting
For her reprise
I love the rain
I love the rain
I love the rain
I love the rain
I love the rain
I love
I love
I love
I love the rain
Oh yeah
I love
I love
I love
I love the rain
Oh yeah
