

Lenny Kravitz, Supersoulfighter

Super soul fighter's coming
Oh yeah

Soul brother space man
Flying through the sky
Fighting wars and battles
Defending you and I

He's spreading super love vibrations
For a better day
Electronic super soul vibrations
Coming all the way

Super soul
Super soul
Super soul fighter's coming
Yes he's coming

Super soul
Super soul
Super soul fighter's coming
Yes he's coming

The lord of the wasteland
He don't want us to be free
But he can't stop our hero, hey
On his supersonic V

He's spreading funk throughout the nations
And for you he will play
Electronic super soul vibrations
Has come to save the day

Super soul
