

Lenny Kravitz, You Were In My Heart

I want to be a better man
Lord knows that I'm trying
I want to keep the master's plan
But sometimes things get wild
Demons sleep with me in bed
I can feel their fire
When darkness gets around my head
Sometimes I go blind

But you were in my heart
While the evil eye was searching out was staring at me
But you were in my heart
While the maids of doom, were reaching out and tempting me

The world can give you everything
Anything you want
Money, fame
And all it brings
Whatever turns you on
But your bloods running through my veins
And I am standing tall
But even though you took my place
You are somehow bound to fall

But you were in my heart
While the evil eye was searching out was staring at me
But you were in my heart
While the maids of doom, were reaching out and tempting me
