

Lenz, Switchblade

Switchblade, do what I got to
Vacate, I'm coming right at you
Slow down, before you take your last step
This is a test of the; bumps 'n' bruises
You know you get used to
I choose to run with my home crew
Lock down, it's gonna be a blackout
Now it's your turn, let me hear you shout
YEAH! YEAH!
I'm gonna teach you, class in session
It's a long road, now your flexing for
Above ground, to do the things you used to
'Cause if you could live like me
Underground, lonely sights and lonely sounds
Could you fight the darkness, all around?
No way up and always down
For me this is the only game in town
Action, everything is set to
Explode, 'cause now it seems you got to
Reload, it's time to go solo
Amped up, this place is gonna blow
Shut down, you're covered in dirt and
Stay down, trouble is you're hurt now
You're back, this is what it's all about
Now it's your turn, let me hear you shout
YEAH! YEAH!
I'm gonna teach you, class in session
It's a long road, now your flexing for,
Above ground, to do the things you used to
'Cause if you could live like me,
Underground, lonely sights and lonely sounds
Could you fight the darkness, all around?
No way up and always down
For me this is the only game in town
Do you want this?
Break it down now.
Can you feel this?
This is how we groove now
Can you live this?
This is where we fly now
This is how we got it going
Could you live like me?
Underground, lonely sights and lonely sounds
Could you fight the darkness, all around?
No way up and always down,
For me this is the only game in town
For me this is the only game in town
'Cause if you could live like me
Underground, lonely sights and lonely sounds
Could you fight the darkness, all around?
No way up and always down
For me this is the only game in town
