

Leon Jackson, Right Now

Right Now
Let me take you by the hand
Right Now
Put your lips at my command
Right Now
Fly me off to lovers land
Baby
Don't you live me at the post
Kiss me
You can feel it coast to coast
Right Now
Baby need your love the most
You have set me soul on fire
Only you can satisfy this great desire.
Right Now
Let the fool world break in two
Right Now
Stars can tumble from the blue
Right Now
Just as long as I'm with you
Right Now
Its the time and Its the place
Right Now
For a ride to outer space
Right Now
Let me have that wild embrace
You have set me soul on fire
Only you can satisfy this great desire.
One Time
Let the wine of love flow free
Right Now
Be the lover you can be
Right Now
Come and give yourself to me
