## Leon Russell, Hummingbird

Sometimes I get impatient
But she cools me without words
And she comes so sweet and softly
My hummingbird and have you heard
That I thought my life had ended
But I find that it's just begun
Cause she gets me where I live
I'll give all I have to give
I'm talking about that hummingbird
Oh she's little and she loves me
Too much for words to say
When I see her in the morning sleeping
She's little and she loves me
To my lucky day
Hummingbird don't fly away (woah yeah)

When I'm feeling wild and lonesome She knows the words to say And she gives me understanding In her special way And I have to say In my life I'll love no other Because she's more than I deserve And she gets me where I live I'll give her everything i have to give I'm talking about that hummingbird Oh she's little and she loves me Too much for words to say When I see her in the morning sleeping She's little and she loves me To my lucky day Hummingbird don't fly away

Don't fly away don't fly away Don't fly away Don't fly away
