## Leona Lewis, Angel

I feel it, you feel it That this was meant to be I know it, you know it That you were made for me We can't deny this any longer Day by day it's getting stronger I want it and you want it It's what the people wanna see

We're like Romeo and Juliet Families can't divide us Like the tallest mountain or the widest sea Nothing's big enough to hide us

When we make love its overwhelming I just touched the heavens You're an angel You're an angel I said

Chorus This world, this world Could leave us any day But my love for you it will never go away And I don't wanna go to sleep Cause you are like a dream For every night I say a prayer Well I swear you are the answer You're an angel You're an angel

So we take it and each moment our love grows I say it and you say it What we have is made of gold We're so filled with meaning Nothing can make us shallow So I hold it and you hold it The promise of tomorrow

So when we make love it's overwhelming I just touch the heavens You're an angel You're an angel And I said

## Chorus

I don't need three wishes, Well I just need one For us to never be finished, For us to never be done When they say it's over, We'll just say I love you And when they say it's finished, We'll just keep on building

Chorus x 2

You're an angel You're an angel You're an angel

You're an angel

You're an angel You're an angel
