

# Leona Naess, Comatised

Two days today  
Don't carry much weight  
But all the stars are here  
And they've made it quite clear  
That I am alive  
So very alive

Please tread gently  
Ever so friendly  
I'm back from a temperate sea  
Capsize when you comatise  
When you capsize, you're comatised  
By a love that never should have died

I was up before the dawn  
Like a child on Christmas morn  
And all the blues were in his sky  
Waiting to impress you  
So alive  
So very alive

Please tread gently  
Ever so friendly  
I'm back from a temperate sea  
Capsize when you comatise  
When you capsize, you're comatised  
By a love that never should have died

Capsize when you comatise  
When ya hit the tide on the other side

Please tread gently  
By a love that never should have died
