

Leona Naess, Don't Look Back

Don't use my broken heart, to pick up other girls
You know as well as I do
Should I remind
Yours is broken too
So smile through your days
And believe in what the papers say
You know as well as I do
Should I remind
Nothing is sad as a man with bells on his shoes

Don't look back
Don't look down
Stay real still
I'm not around

Don't use the records I've played you
To seduce and reduce what remains
You know as well as I do
They only will remind
That you'll never have this heart again

Don't look back
Don't look down
Stay real still
I'm not around

Halloween
It was you that kissed me
Its where it begun and all ended for me

And I loved you before you were king
Of all the money that was rolling in
And I was just a child and I was running wild
But I only ran wild for you

Don't look back
Don't look down
Stay real still
I'm not around
(Repeat 2x)
