

Leona Naess, Not The Same Girl

These are the best days of your life
Dinner party and friends and ...?
Climbing down the apple tree
I can see your strength in me

Storm's a brewing and we're heading for the chain
Friends will marry and move away
You will look back at it all
Memories framed across an empty hallway

You're not the
Same girl who
Writes love songs
And means them
You're not the
Same girl who
Has butterflies
And believes them
Then believes them

Hail to the ghosts of 295
That's where we fell in love
I'll stop needing you yeah
I won't stop wanting to

I'm not the
Same girl who
Writes postcards
For strangers
I'm not the
Same girl who
Wears pigtails
And says "I love you"
Says "I love you";

Says "I love you";
Says "I love you";
And we knew and we knew and we knew it all
And we knew and we knew and we knew it all
And we knew and we knew and we knew it all
And we knew and we knew and we knew it all
And we knew and we knew and we knew it all
And we knew and we knew and we knew it all

We're not the
Same girls who
Watch movies
And believe them
