

# Leonardo'S Bride, Alaska

To build a fire isn't always easy  
In a storm but you can try  
Just when I was thinking what's an eskimo to do  
Something in the fog says I can find my way with you  
The walls are white  
The room feels bigger than is  
On into the night  
The wind will be whistling a tune  
Just when I was thinking what's an eskimo to do  
Something in the fog says I can find my way with you  
Sun in my alaska  
Sun in my alaska  
Time to go outside  
Time to read the writing on the wall  
Facing up to this  
I kiss the light  
Colder than a polar bear this much is true  
Just when I was thinking what's an eskimo to do  
Something in the fog says I can find my way with you
