

Leonardo'S Bride, Let Me Come Over

You stop yourself before you start
No-one is allowed inside you
The desert of your heart
The one I want to ride through
Let me come over
If you want to shoot the moon
If you want to sail for the sun
If you want to shake the monkey
Baby, I'm the one
Let me come over
I like how you're holding out
For who I wonder
I like your easy blush
And when you swing your wrecking ball
Down like thunder
Baby I can take the crush
Let me come over
