California
California
California
good bye
Let's go down to California
listen girl
I wanna warn you
All the guys and girls are doing things
We should have thought of long ago
wo wo wo wo
California hear me calling
late at night or early morning
You've got all the answers to the questions
And the things I'd like to know
California
California
Going to California
going to California
going to California.
California
California
California
good bye
Let's go down to California
you won't ever catch pneumonia
California sunshine king
of good old westcoast
surfing USA
Hey
hey
hey
hey
California
I ain't greaving

I can laugh 'cause I ain't leaving
Every time I wake up it's a cloudless sky
another sunny day
California
California
Going to California
going to California
going to California.
California
California
California
good bye
Let's go down to California
reason why I telephoned ya.
I just had enough of New York City
New York City had to go
wo wo wo wo
California hear me calling
late at night or early morning
You're the one that puts a smile upon my face
Whenever I am low.

California
