

Les Humphries Singers, Take Care Of Me

Take care of me
take care of me
don't hide yourself away so I can't see
shall I tell you what you wanna know
all the little things that left me long ago.

Take care of me
take care of me.
I think that what you want is to be free.
shall I tell you what you wanna know
all the little things that left me long ago.
Do do (etc.) take care of me.

Always walkin' out never thinkin' 'bout
the way I used to look into your eyes
if you'd care for me you would never be
the girl I used to think was so unwise.

Take care of me
take care of me.
If I give the hint will you agree.
Shall I tell you what you want to know.
All the little things that left me long ago.
