

# Lesley Gore, By my life

Be my lover  
Be my light  
Be my morning  
Be my night  
be the one who brings me flowers with the good times  
And comfort with the strife  
Be my life  
Make it easy  
Make it tough  
Make it with me  
That's enough  
Make the funny things you say and do each day  
Just for me it seems so nice  
So be my life  
If something says that we should be  
Then baby can't you see  
You can't fight you and me  
Share my friendship  
Share my home  
Share your love  
With me alone  
Share the hopes and dreams we both have for tomorrow  
Won't you please make me your wife  
And be my life
