

# Lesley Roy, Here For You Now

Fall down, yeah you're falling on your knees  
And you're begging me please to help you  
The sound of you screaming on the ground  
'Cause the demons in your head have found you  
I don't wanna hurt you  
I just wanna fix you  
I know I can make it right again  
I want you to see me  
I need you to feel me  
That's all that I wanted in the end  
Hey you  
Take a look around, I'm beside you  
I'm right here for you now  
Hey you  
It's hard enough to be what you want to  
I'm right here for you now  
Right here for you now  
Stand back, getting closer to the edge  
Just turn around and walk away now  
Come back, stop putting on the act  
Can't I have you just the way that I found you  
You don't wanna hurt me  
You gotta believe me  
I know I can make it right again  
I'll always look after  
To care that I have to  
That's all that I wanted in the end  
Hey you  
Take a look around, I'm beside you  
I'm right here for you now  
Hey you  
It's hard enough to be what you want to  
I'm right here for you now  
Right here for you now  
'Cause I remember you  
And how you used to be  
Do you wanna waste it all for them?  
Hey you  
Take a look around, I'm beside you  
I'm right here for you now  
Hey you  
It's hard enough to be what you want to  
I'm right here for you now  
Hey you  
Take a look around, I'm beside you  
I'm right here for you now  
Hey you  
It's hard enough to be what you want to  
I'm right here for you now  
Right here for you now
