

Leslie Mills, Find A Way To Love

Innocence
stripped away
lost it somewhere on my way
to providence
was a dream
where do the grayclouds end?

I am caught between everything
everything pulling me in
at the tide of night
please let me open my eyes
and see again

Chorus:
Kis the bluest sky
find a way to love
i will walk through the fire
to find a way to love
and it will be alright

There's a girl
on the edge of the world
funny she looks like me
what is the sound of release?

(Chorus)

I am here,
i am taking your hand
and here i am
letting go at last
here i am

Is it possible wonderful meaningful things
(Can happen to me?)
in the space of moments, I feel my heart open
you lift me and I can breathe

(Chorus)
