

Leslie Mills, Walk Along

Another how do you do
Turning into a stormy feeling there
Under every new moon
Kiss you feel good
Easier to forget
Why it is that i'm here uh-huh again
Always ready to run
Always trying

(Chorus)

To just walk right back
And beg to borrow
A little bit of love tomorrow
Feel like rolling on
I walk along
To that jet set sunset
Pain in my shoes
Just the way my worries want to
Feel like being alone
I walk along

Another what do you do
As a fearless a dark forgiving sky
I just wanted you to
Be a little alright
Yeah, yeah i get up
As you stroll on away
To careless things
Say you waiting for me
Say hey don't go

Chorus

And i walk along
And i want to try
And i save myself
And i wonder why
Chorus
