

# Leslie Phillips, Love Is Not Lost

Love is not lost  
Boy  
Boy meets girl  
And you know the rest  
Boy loses his girl  
In their love's first test  
Is this supposed to be a happy ending now  
Is this the way it always goes  
Girl  
Throws in her heart  
Like a losing hand  
She uses the boys  
'Cause she thinks she'll never find her man  
Is this supposed to be a happy ending now  
Is this the way it always goes  
Well I think I want my money back  
Because that's not all I know  
Love is not lost  
It's not a lost cause  
I meet you  
And you cut my heart  
You shake my ideals  
Until they fall apart  
Have I lost it if I hope for something more  
Than feeling fatalistic pain  
And if true love never did exist  
How could we know its name  
Love is not lost  
It's not a lost cause  
Don't give up now  
Love is not lost
