

# Less Than Jake, Biggger Picture

Breaking down from every insult that you've taken  
From one sided conversations  
Burning out from all the minor misconceptions  
That just plays on your frustrations  
Your self-doubt has your head so turned around  
There's not a catch phrase that can save you  
It's not that hard to figure out  
Disappointment doesn't have to cut to a commercial now

I'm breaking down I'm burning out  
And it's not funny like on television  
When your self-doubt turns you inside out  
And it's not funny like on television

Breaking down from every insult that you've taken  
You're burn out from all the minor misconceptions  
It's not that hard to figure out  
Disappointment doesn't have to cut to a commercial  
Your self-doubt has your head so turned around  
There's not a catch phrase that can save us now

I'm passing time since I've been right  
and it's not funny like on television  
Those times I cracked with no laugh track  
And it's not funny like on television  
GO!

I'm breaking down I'm burning out  
And it's not funny like on television  
I'm passing time since I've been right  
and it's not funny like on television  
Those times I cracked with no laugh track  
It's wasn't funny like on television  
When your self-doubt turns you inside out  
And it's not funny like on television

WHOOOOOAAAA,  
OOOO OOO  
OOOO OOO  
And it's not funny like on television
