

Less Than Jake, The Ghosts Of Me And You

I've been down
wandering past 2nd street
and looking at the ghosts
of you and me and thinking back on
all those memories of how we used to be

I've been hearing
I hear those voices
over the noises of the breaking glass
and all those plans we had to get us through
they're never coming true

And I hope and hope
that you won't forget
and I hoping, hope you know that
that I can clearly see

The ghosts of you and me
'cause I'm just a moved on memory
and you're still alive
and I'm still getting by
on these dead end streets
the ghosts of you and me

I'm still talking
talk of what we'll do
to the ghosts of me and you
and I'm still looking back into the past
when we were all we had

And I hope and hope
that you won't forget
and I hoping, hope you know that
that I can clearly see

[Chorus]
the ghosts of you and me [x2]

Hope you won't forget
hope you know that I'll always regret
those things I said
hope you know that I can clearly see

[Chorus]
the ghosts of you and me [x3]

Yeah
