

Letdown, Shipwreck

Shipwreck floating away
When I don't have anyone to help me climb
I can't keep living this way
When I walk they talk you know they think they see but
Im not going away
When I've got so much life left to live inside my
Head is full of shame
But I'm not done

They know my name their teeth are waiting
They know my shame but I'm not falling apart
They know my ways but their not waiting
I should've run from the start

But they lie to me I talk back
But they don't have the answers to the right path
I only wanna kill my fear and not hear what they have to say

Show me the way
Show me the way
Shipwreck floating away
Shipwreck floating away

I've been so afraid
Death won't stop till we've all been taken
I won't ever change
Life goes on while the rest are losing

But they lie to me I talk back
But they don't have the answers to the right path
I only wanna kill my fear and not hear what they have to say

Show me the way
Show me the way
Shipwreck floating away
Shipwreck floating away

He's a bad play he's down on his knees
They're singing Wrong turn boy
He's a heathen
No home in
No season
Wrong question
No reason

Shipwreck floating away
When I don't have anyone to help me climb
I can't keep living this way
But I'm not done

Show me the way
Show me the way
Shipwreck floating away
Shipwreck floating away
