

LeToya Nicole Luckett, Don't Make Me Wait

Baby some things never need to be said
If you're a man tell me what we're doing next
I can't stay here forever
Don't expect me to take the first step
You shouldn't have to read my mind
See my body's telling the story?
And it's saying you can be the star tonight
So you better come and get me
Don't make me wait
Baby I don't wanna wait
You better come and get me
Don't make me wait

Don't turn me into a regret
You're in my head, what's some words you never said?
It's that close that we get
You know I could tell, you're a bully in the bed
Boy I don't have to read your mind
See your body is telling the story
And it's saying I should be all yours tonight
Bet you try to come and get me
Don't make me wait
Baby I don't wanna wait
You better come and get me
Don't make me wait
Baby I don't wanna wait
You better come and get me
Don't make me wait
