

# LeToya Nicole Lockett, Don't Make Me Wait

Baby some things never need to be said  
If you're a man tell me what we're doing next  
I can't stay here forever  
Don't expect me to take the first step  
You shouldn't have to read my mind  
See my body's telling the story?  
And it's saying you can be the star tonight  
So you better come and get me  
Don't make me wait  
Baby I don't wanna wait  
You better come and get me  
Don't make me wait

Don't turn me into a regret  
You're in my head, what's some words you never said?  
It's that close that we get  
You know I could tell, you're a bully in the bed  
Boy I don't have to read your mind  
See your body is telling the story  
And it's saying I should be all yours tonight  
Bet you try to come and get me  
Don't make me wait  
Baby I don't wanna wait  
You better come and get me  
Don't make me wait  
Baby I don't wanna wait  
You better come and get me  
Don't make me wait
