

Lexi, Too Many Chances

If I could have one last chance to make
Everything I ever wanted an instant take
I would do it with my heart set
Not to make it something to regret
If I could make us work, give it another shot
You know damn right I'd give it everything I got
I loved you from the start of this
Don't let the first be our last kiss
Oh Whoa
I'd been
Playin' hard Playin' dangerous
I had one shot but dang I missed
I didn't really know I'd only get one try
It's hard enough for me just to tell you goodbye
Showin' the cards Messin' with the guards
Makin' all the good things I got disapper
I'd been takin' too many chances here
If I could give and take whatever I feel
I'd make your love for me be real
