

# Lexicon, Don't Be Afraid

(Big Oak)

Now set it off, like... Yo yo, yo Nick, where you at, my man?

(Nick Fury)

I'm right here. Right here. Cheapshot, where you at?

(scratched)

Say what?

(Big Oak)

See it took movin' with a fleet foot  
So the key should be to move limbs  
It's all sink or swim  
And I never even (unintelligible) and just slippin' to the bottom  
Just locked on to my targets  
When they close enough I shot 'em  
That's just how I do, already showed you  
But when you fall too many times that gets old too  
So now I promise that you'll never hear me complain again  
Cause when it comes to paying dues you're forced to stay in debt  
People came and went, my savings spent  
But I'm just happy I can pay my rent  
Although it takes me for my very last cent  
I never break down, prefer instead to break ground  
You can't hang the shake down and run through the night  
I'm too busy makin' moves to get caught up in your fight  
You try to raise it up but couldn't find the wind for your kite  
I simply worked harder, and now I'm set for the clock

(chorus, woman's voice & Big Oak simultaneously)

(woman)

(Big Oak)

Don't be afraid           Whatcha doin with yourself?  
(that you'll lose?)      And where ya going with yourself?  
And whatcha showin' of yourself?  
And are you happy with yourself?

(repeat chorus 3 more times)

(Nick Fury)

As a kid they said to follow your heart  
Put your right foot forward and your left at the start  
You gotta be straight and narrow, slicked back with a part  
Follow the light or get stuck in the dark  
Man, ain't shit changed, gotta switch lanes  
Break down the wall if you don't flip frames  
I'm new to you but I got practice at this  
Every day it's an impression of Atlas  
And the fact is, I never gave up, gave in, or tapped out  
Got too much pride for that  
And it's an uphill climb, I get so tired that I pass out  
But I ain't slidin' back, I've  
Lost hope, watched it come out of nothing  
Heard a lot of talk, seen a lot of bluffing and  
I learned somthin' man, every day I stay breathin'  
That's what separates tryin' from believin'

(chorus x 4)
