

Lexie, Never

You no that the only thing I can think about now is you, you made me feel like I was worth something
How can you do this to me your all I ever wanted and you break me down like shattering glass.
You made all my fears get left behind when I was around you life seemed so clear then but you can't

Chorus

How can you just leave me here alone to rote and go with someone else so soon. Why were you so
I see now that you were just a coward and a fake.

I never will know what I saw in you I was young and naive and you taught me a good lesson for life

I hope no one else has to go through that pain yes now I'm over it and I will hope for someone better

I will never know its something I would like to just forget about.

Repeat chorus

I see now that you were just a coward and a fake I will never know what I saw in you.
