## LFO, Every Other Time

C'mon

I said lets talk about it as she walked out on me and slamed the door but I just laugh about it cuz shes always playin those games

C'mon

(deep down) deep down i know she loves me but shes got a funny way of showin me how she cares (she cares) last night she did a donut on my lawn and drove out w/ her finger in the air Oh yeah

Sometimes its black
Sometimes its white
Sometimes shes wrong
Sometimes im right
Sometimes we talk about it or we figure it out
But then she just changed her mind
Sometimes shes hot
Sometimes im cold
Sometimes my head wants to explode
But when i think about it im so in love with her

Every other time nanananananananana Every other time nanananananananana Every other time nanananananananana Every oth-every other time

sometimes we sit around just the 2 of us on the park bench sometimes we swim around like 2 dolphins in the oceans of our hearts

but then i think about the time that we broke up before the prom and u told everyone that I was gay "ok" sometimes I walk around the town for i was just to settle down but I take you back and u kick me down cuz thats the way uhhu uhhu I like it

Sometimes its black
Sometimes its white
Sometimes shes wrong
Sometimes im right
Sometimes we talk about it or we figure it out
But then she just changed her mind
Sometimes shes hot
Sometimes im cold
Sometimes my head wants to explode
But when i think about it im so in love with her

nanananananananana Every other time nanananananananana Every oth-every other time

Keep it up home girl don'tcha quit u know the way u scream is the ultimate And when I walk away just watch the clock n then i don't even get around the block and I say "let's talk about it" as she walks out on me and slams the door one day we'll laugh about it cuz we're always playin those games

nanananananananana every oth-every other time
